SUMMARY

Experienced Data Management Executive with 5 years at Osaw Udyog Private Limited, specializing in data visualization, reporting, and analysis using tools like Google Sheets, Looker Studio, SQL, and Power BI. Now seeking a full-time Frontend Developer role to leverage my skills in HTML, CSS, JavaScript, and React, with a strong passion for building user-centric web applications that are both functional and visually appealing.

WORK EXPERIENCE

Osaw Udyog Private Limited | DME
Ambala, India | [Sept 2018 – Till Date]

- Developed and maintained data dashboards and reports using Google Sheets, Looker Studio, and Power BI, providing actionable insights to stakeholders.

- Conducted complex data analysis and created SQL queries to extract and manipulate large datasets

- Collaborated with cross-functional teams to streamline data processes and improve data accuracy.

- Automated routine tasks and data entry processes, reducing manual effort and enhancing productivity

SKILLS

Languages & Framework
HTML, CSS, JAVASCRIPT, TAILWIND CSS, REACT, SQL, PYTHON

TOOLS
GIT, GITHUB, NETLIFY, VS CODE, FIGMA

DATA ANALYSIS
EXCEL, GOOGLE SHEETS, LOOKER STUDIO, POWER BI, DASHBOARDS

PROJECTS

Recipe Finding App (HTML, CSS, JAVASCRIPT)
(09/24-10/24)
Developed a dynamic Recipe Finder app using HTML, CSS, and JavaScript, enabling users to search for recipes by name. Implemented functionality to display detailed ingredient and nutrition information on a separate page for each selected recipe, enhancing user experience and data accessibility. This project improved my skills in JavaScript for handling search functionality, DOM manipulation, and page routing, as well as my understanding of user-centric design principles for presenting structured data

Portfolio Website (HTML, CSS, REACT)
(11/24-12/24)
Developed a responsive portfolio website using HTML, CSS, and React JS, showcasing projects and skills in an organized, user-friendly layout. Improved my proficiency in React for component-based architecture, state management, and dynamic content rendering, while applying CSS for custom styling to create an engaging user experience.

Web Dev Project (HTML, CSS, JAVASCRIPT, REACT)
(05/24-10/24)
Through a series of JavaScript-based projects, including interactive games, API-driven apps, UI clones, and productivity tools, I strengthened my skills in DOM manipulation, event handling, API integration, and responsive design. These projects taught me to manage state, implement CRUD operations, and create engaging user experiences, while also developing a strong foundation in JavaScript and CSS for building dynamic, interactive front-end applications.
